## DESPAIR PREVAILS

Among the Members of the Much Tried Russian Admiralty.

Effect of Skrydloff's Report

Coming Upon the Heels of the Losses to the Port Arthur Squadron Discourages the Russians as to the Probable Outcome of the War.

St. Petersburg, Aug. 19.—1:30 p. m.—A feeling almost akin to despair reigns in the much tried Russian admiralty. The official report of Vice Admiral Skrydloff coming on the heels of the known losses sustained by the Port Arthur squadron in its desperate sortie of August 10th, and the anxiety over the fate of war ships still unaccounted for not only confirming the sinking of the Russian vessels, but showing that the injuries sustained by the Gromoboi and Rossia in the fight with Vice Admiral Kamimura's squadron were even greater than anticipated, completes the crushing nature of the blow to Russia's ill-starred naval forces in the far East. So far as the immediate future is concerned the admiralty does not disguise the fact that Vladivostok squadron is destroyed. The effect upon the public is also most depressing. The only consolation found is in the words of praise bestowed on the officers and men and the naval experts. In some quarters of the navy there is a disposition to censure Rear Admiral Jesso for abandoning the Rurik, even thought standing by her would have meant that the Gromoboi and Rossia would have shared her fate.

It is confirmed that losses of officers and men on board the Rossia and Gromoboi were 50 per cent of the former and 40 per cent of the latter, showing the dreadful havoc caused from the fire of a Japanese ship even at a range exceeding three miles. Private reports say the decks of the Rossia were veritable shambles.

**BATTLE IS IMMINENT**  
The Russian and Japanese Troops are Only Twenty Miles Apart.

Mukden, Aug. 19.—A battle is regarded as being imminent, as the Japanese on the Russian front are only twenty miles from Liao Yang. The advance posts are not more than four miles apart and small skirmishes are of daily occurrence. On the south, the Japanese have retired to Hai Cheng.

**Roads Washed Away by Flood.**  
Liao Yang, Aug. 19.—The rains have now continued unceasingly for a week and the roads in many cases have been completely washed away. The Japanese are not making a move so far as known here.

**UNKNOWN STEAMER**  
Was Captured This Morning By Seven Japanese Destroyers.

Washington, Aug. 19.—The state department has received a cablegram from Che Foo, dated today, the substance of which is as follows:

"This morning seven Japanese destroyers entered the harbor and met an unknown steamer entering, which they captured. Two Japanese cruisers are outside the harbor."

The dispatch is so worked as to leave in doubt one of the most important points connected with the seizure, namely the exact spot at which it took place and whether within or without the three mile limit. Naval officers familiar with the harbor of Che Foo state that there are two entrances from opposite directions, and it is inferred from the above dispatch that the Japanese squadron approached through one of these entrances to find the unknown steamer referred to coming through the other entrance. The impression here is that consequently the seizure took place within the Chinese territorial waters.

## UNIFORMS AND EQUIPMENTS

Selected for the Staff Officer of the K. of P. Are Similar to those of U. S. Army.

Louisville, Ky., Aug. 19.—The supreme lodge Knights of Pythias today decided to hold their next biennial en-

## FIVE BATTLESHIPS

And One Russian Cruiser Are Still at Port Arthur.

St. Petersburg, Aug. 19.—5:32 p. m. Later in the day the admiralty received official information that Vice Admiral Prince Ouktomsky's five battleships and the protected cruiser Palada are at Port Arthur. A telegram received here from the Russian consul at Che Foo does not mention whether the vessels are damaged and makes no reference to the report from Tokio that a gunboat of the type of the Otavai had been sunk off the Liaotai promontory owing to having collided with a mine.

**JAPAN HAS NOT REPLIED**  
To Russia's Protest in the Case of the Ryeshitelm.

St. Petersburg, Aug. 19.—6:28 p. m.—Japan has not replied to Russia's protest in the case of the Ryeshitelm and there is no further reply from China.

It is regarded as probable that the admiralty court, when the contraband cases come up from the Vladivostok prize court on appeal will specially censure the Russian declaration, as embodying in the deliberations of the subject now in progress at the foreign office, thus avoiding the necessity for a public modification of the declaration by the government. There is reason to believe that the interpretation of the regulations as indicated in these dispatches yesterday will be satisfactory to the United States and Great Britain.

**JAPANESE RETIRE**  
From Some of the Forts Which They Have Captured.

Che Foo, Aug. 19.—(Noon).—Chinese who have arrived here from Port Arthur declare that the Japanese position at Pating Chang from which they poured a heavy fire into Port Arthur and the near forts has been retaken, the Japanese retiring to Shing yen.

The German authorities at Tsing Tau have sent a guard of 100 men to a point 15 miles east of that place for the purpose of frustrating an expected attempt on the part of the Japanese to erect a wireless telegraph station.

**THE FINAL STAND**  
Has Been Taken By the Russians at Port Arthur.

Che Foo, Aug. 19.—8 a. m.—Chinese who embarked from Liaotien Shan promontory at 11 o'clock yesterday morning, report the continuance of heavy fighting. They say the Japanese have occupied Pigeon Bay and are within striking distance of the Liao Tien Shan forts, which however, are still occupied by the Russians.

According to the Chinese, the Russians at Port Arthur are making their final stand.

**DECISION AGAINST RUSSIA**  
The Vessels at Shanghai Must Disarm or Leave Port.

Washington, Aug. 19.—Consul Goodnow has cabled the state department from Shanghai that the Chinese Taotai there has reported against the claim of Russian consul general and decided that torpedo boat destroyer now at that port must go out or disarm by the 20th instant and that the cruiser must do likewise by the 21st.

campment in New Orleans. New Orleans won by a vote of 99 to 41. The encampment will be held the third Tuesday in September, 1906.

The supreme lodge has ordered uniforms and equipments for all officers except general officers and the officers of the general staff. The uniforms adopted are practically the same as worn by the officers of the United States army.

## O'BRIEN WAS RE-ELECTED

Without Opposition Member of Parliament From the City of Cork.

Cork, Ireland, Aug. 19.—William O'Brien today was re-elected a member of parliament for Cork city, unopposed. It is not known whether he will accept, but the local executives of the United Irish League will use every effort to induce Mr. O'Brien to return to parliament.

Mr. O'Brien, November 9, 1901, resigned his seat in parliament from Cork City, and as a member of the governing body of the United Irish League, owing to differences of opinion with members of the nationalist party.

## THE WEATHER WAS GLOOMY

And the Golfing Conditions Were Heavy for the Elimination Play at Chicago.

Chicago, Aug. 19.—Survivors in the western golf championship at the Exmoor County Club today, found gloomy weather and heavy golfing conditions when they began the elimination play in the third round. A cold east rain that had been falling during the night, continued all morning. Former champion Louis N. James having been eliminated from the contest by his defeat yesterday at the hands of "Red" Sawyer, only one man remains on that side of the draw—R. H. McElroy. His colleagues from the third round were W. K. Wood, "Red" Sawyer and Geo. Clingman. Pay Ingalls, Harvard's champion was the only out-of-town golfer left in the journey as the result of the play in the second round.

Rain and dreary weather had no effect on Chandler Egan's play and he earned his way into the semifinals by defeating Ralph Hongland, 5 up and 4 to play.

## VERDICT OF MANSLAUGHTER

Brought Against the Drug Clerk Who Sold the Wrong Medicine.

St. Louis, Mo., Aug. 19.—The coroners jury which has been investigating the death of Mrs. Jennie Helm, of New York, who died in a hotel here after taking a dose of what she supposed was cream of tartar, returned a verdict today of manslaughter against Charles M. Pathing, the drug clerk who sold the preparation to Mrs. Helm's husband. The jury also recommended that F. L. Richt, the proprietor of the drug store be held for allowing an unlicensed drug clerk to sell drugs.

## ALONE

At Midnight in the Streets.

## A Black Hand

Not Believed by Police to Be Implicated

In the Mysterious Kidnapping of the Brooklyn Boy.

The Father Is Reluctant Concerning the Affair and a Relative Is Under Arrest for the Abduction.

New York, Aug. 19.—The circum-stances surrounding the return of An-tonio Manning, the 9 year old Brooklyn lad, are almost as mysterious as was his disappearance. According to Salvatore Manning, a relative, the boy was found alone on the street near his home after midnight, but this the police do not believe. Manning is locked up on a charge of abduction. A theory advanced by the police is that Manning was kidnapped by his own relative, and that the parents of the boy was threatened with death if the boy told all he knew. This is thought to have been the elder Manning's reason for silence while he was being questioned and also is thought to account for the boy's state of terror, and apparent dread of impending danger. It is known that the boy's father has not furnished all the facts possible to the police and has not given all the assistance to find the boy, it was possible for him to do.

## DEMANDED THE REMOVAL

Of the Receiver and the Return of the Asphalt Property to American Co.

Port of Spain, Island of Trinidad, Aug. 19.—Advices were received today from Caracas saying the American minister, Mr. Bowen, in the name of the United States has requested Venezuela to remove Mr. Carter, the receiver appointed to take charge of the property of the New York and Bermudez Asphalt Company and to return the asphalt lake to the American company.

## NEW ORLEANS GETS NEXT ENCAMPMENT.

Louisville, Ky., Aug. 19.—The supreme lodge, Knights of Pythias today voted to hold the next biennial encampment in New Orleans.

## BLOOD POISON WAS RESULT

Of a Mosquito Bite, and the Victim Died From the Effects of It.

Chicago, Aug. 19.—August Anderson, a farmer of Stark county, Indiana, died in a Chicago hospital from a bite of a mosquito. Anderson suffered a slight injury which caused an abscess of the skin on his right hand. A mosquito bit him in the abrasion and a few days later Anderson began to suffer intensely. He came to Chicago for treatment, but blood poison resulted.

## MURDERER ESCAPES.

Newcastle, Pa., Aug. 19.—Rathwell White, who murdered an officer and probably fatally wounded another on Wednesday night, was surprised by a posse at the home of his mother last night, where he had taken refuge. He succeeded in eluding his pursuers, however, but not until he had been wounded. Information charging White's mother with aiding a fugitive to escape was made today.

## THE FUNERAL OF MRS. DAVIS,

Wife of General G. W. Davis, Was Held Today in Washington.

Washington, Aug. 19.—The funeral of Mrs. Davis, wife of General George W. Davis, governor of the Panama canal zone, was conducted at St. Matthews church today, after which burial services were held at Arlington, where the remains were interred. The pall bearers were General George W. Gillespie, acting chief of staff; General F. C. Ainsworth, military secretary; General Tasker H. Bliss; General J. P. Sanger, General John M. Wilson and Dominick Murphy, secretary of the canal commission.

## WILD ADVANCE IN WHEAT.

The Run Reports Send the Prices of That Cereal Soaring Upward.

Minneapolis, Minn., Aug. 19.—Reports of rain all over the northwest making the crop situation, already deplorable, worse than ever, caused wild bull market at the opening of wheat trading today. September touched 116½ December went to 112½, and May to 113½.

## MARRIED IN PARIS.

Paris, Aug. 19.—The marriage of Frank Wyle, a fellow of Brazenos College, Oxford, to the daughter of Edmund Kelley, the well known American lawyer of this city, took place yesterday at the American Episcopal church.

## GENERAL CHAFFEE

Commanding the Armies of the United States Visits Columbus.

Compliments the Ohio Troops

In High Terms and Goes In His Private Car to Fort Thomas, Kentucky to Inspect the Troops in Barracks There. McMackin Victor in Yesterday's Action.

Columbus, O., Aug. 19.—Lieutenant General Adna R. Chaffee, commanding the armies of the United States, is at the Columbus barracks, inspecting the third battalion of the twenty-seventh infantry at the Columbus barracks today, complimenting it highly.

The inspection was held at 9 a. m. and was conducted by General Chaffee. Quartermaster General of the army, Humphrey and Captain Hutchinson of the general staff, all of whom arrived in the special car Thursday night.

The general left this afternoon for Fort Thomas, Ky., where he will inspect the troops Saturday.

**McMACKIN WAS THE VICTOR**  
According to the Decision of Col. Albert Wagner, Chief Umpire.

Division Headquarters, Camp Her- rick, Aug. 19.—Col. Albert Wagner, of the United States army, chief umpire for the national guard maneuvers, will rule that General W. V. McMackin, commander of the army, was the victor in yesterday's operations.

He will announce his decision on a meeting of all the department commanders in camp.

The next maneuver will be Saturday. It will be more spectacular and the opposing forces will travel in companies, battalions and regiments instead of squads.

Troop M. of the Fourth United States cavalry, one contingent of the army in Brown, composed of the second brigade, was captured by troop L of the Fourth United States cavalry, commanded by Captain John O. Shea and Lieutenants V. H. Dorey and A. M. Milton, and by troop B of the national guard, commanded by Captain R. D. Palmer and Lieutenants Caamlerlain and Nauss of Columbus. The timely arrival of the second brigade alone prevented the capture of Brigade Commander General J. C. Speaks, of the army on Brown.

The entire day was practically spent in maneuvering for advantage.

## CAMPAIGN OPENING AT ROSEMONT.

Will Occur Tomorrow When a Number of Political Clubs Will Visit Esopus, New York.

Esopus, N. Y., Aug. 19.—The opening of the democratic campaign at Rosemont, so far as visits from political organizations are concerned, will take place tomorrow, when a delegation will arrive from Brooklyn representing the Brooklyn democratic club and the Kings county democratic club. It is expected there will be about sixty men in the party, which will arrive here at 3:15 p. m. from New York.

The Kings county club is not allied with the Brooklyn democrats, although Herman A. Metz, who will head

the delegation, is president of both organizations. Judge Parker does not expect to address the delegation. The Brooklyn party is coming principally to meet the candidate. The visitors will be entertained on the veranda and the lawn at Rosemont and there will be no formalities whatever.

No visitors of political prominence are expected at Rosemont today, in fact, applications for appointments were discouraged by Judge Parker, who desired to have the day clear to take up his mail and to work upon his letter of acceptance.

A drizzling rain and a tired lot of militia men is the situation today. Governor Herriek and General Miner, U. S. A., went to Athens this morning to inspect the Ohio University and the Athens state hospital. Major Lynch, of the medical department of the U. S. A. and Major Taylor, O. N. G. inspected the second brigade this morning.

Lieutenant Colonel Bush has gone to Zanesville to attend the funeral of his uncle, Edward Bush.

All work except necessary routine was suspended today and the men were allowed to rest after Thursday's exertions, which were wearing since there have been no dress parades or regular drills. Plans were laid for Saturday's engagement and a consultation of officers was held Thursday night to discuss the maneuvers during the day. It has been suggested that the war zone is too large, but general Speaks does not favor any reduction of the territory.

State officers follow Governor Herriek in this secluded rendezvous of the hills. He is attending to business, receiving many applications for appointments and occasionally entertaining delegations from various counties. Representative Smith, of Washington county, held a conference with General Dick and Governor Herriek today. Canal legislation during the next legislature was discussed.

## DENIAL MADE OF THE CAUSE

Of Metcalfe's Presence in Chicago Without Visiting Stock Yards.

Chicago, Aug. 19.—Nat C. Murray, of the government bureau of agriculture, who is gathering statistics at the yards, disposed of the story of Victor H. Metcalfe's presence in Chicago, as an indication of federal intervention by declaring that Mr. Metcalfe simply passed through Chicago yesterday without visiting the yards or any other point save the two passenger stations necessitated by his trip.

## AN ITALIAN VESSEL SENT

To Demand an Apology and Insist Upon a Salute to the Flag of Italy.

Island of Jerba, Tunis, Aug. 19.—The Italian cruiser Amerigo Vespucci, has left Messina, Sicily, for the port of Derna, Province of Barca, eastern Tripoli, to support the demands of Italy for an apology and a salute to the Italian flag as reparation for the mistreatment of an Italian consular servant at Derna. The governor of Barca hesitates to comply with the demands.

### Both Had Strong Pitchers

### In the Battle

### Between Lima and Marion Ind.,

### But Locals Won Out With Assistance of the Hard Slugging Watson.

### Dorn Put Many an Opponent to Sleep With His Puzzling Curves and Had Good Support When It Was Needed.

The greatest crowd of the season witnessed the game at Wheeler park yesterday, but the few unadorned fans were not disappointed, as the game was fast and clean, without what most people believed would be

a walkover for the locals. There were several things that interfered with the attendance. There was a drizzling rain in the morning, and Marion, Ind., came from Findlay with two bad defeats to their credit. It was also expected that Marion was to play two games here instead of one and those who waited for today will have to journey to Sidney if they want to see Marion defeated for the second time. It was late in the game yesterday before Lima attained a safe lead over the visitors who were the first to score, getting their first and only run in the fourth inning. Pfefferle had been retired on strikes when Rademaker hit a fast cutter straight at Schlatter, who failed to stop it. The error didn't count in the run getting as Dorn caught Rademaker off the bag and he was thrown out. Schlatter to Eggert. Clapp then hit safely and went to second on a passed ball. Gunion's fluke hit to deep short scored Clapp and Doyle was thrown out at first.

Lima was equal to the occasion and tied the score. Eggert got a life and came round on sacrifice hits by Burns and Schlatter.

In the fifth, Lima scored another on a single by Frank Seatts and one of Watson's beautiful three-baggers to the left field fence.

The last of the run getting occurred

in the seventh. Frank Seatts was credited with another single. Had the attendance. There was a drizzling rain in the morning, and Marion, Ind., came from Findlay with two bad defeats to their credit. It was also expected that Marion was to play two games here instead of one and those who waited for today will have to journey to Sidney if they want to see Marion defeated for the second time. ## ANNOUNCEMENT To Lima Ladies.

Just arrived---a full shipment of Ladies' Suits in the latest autumn styles and shades.

**PEOPLE'S  
OUTFITTING CO.,**

54 Public Square.

Boston, Aug. 18.---The archbishop of Canterbury, Dr. Davidson and Mrs. Davidson, accompanied by two chaplains, were hidden away by a large number of friends on his departure to join the White Star Line steamer Celtic, which sails for New York from Liverpool today. It appears that special permission of King Edward had to be obtained before the archbishop could accept the invitation to visit the United States.

**Better Than Gold.**

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by H. F. Vorkamp, druggist.

**CHINESE TROOPS ARE  
BEING DRILLED.**

San Francisco, Cal., Aug. 18.---William Martin, U. S. consul at Nankin, China, who arrived from the orient on the steamer Sueria, is quoted in an interview here to the effect that Japanese troops are now being drilled in the central portion of the kingdom under the direction of Japanese officers well versed in the art of modern warfare. In the vicinity of Nankin alone, there are about 4,000 soldiers drilling constantly.

"I find nothing better for liver, debauchment and constipation than Chamberlain's Stomach and Liver Tablets," writes C. P. Andrews, Des Moines, Iowa. For sale by all druggists.

**Tough Luck.**

We were in Knoxville last Saturday, but didn't get home, it being election day, and all the joints were closed up until after our train left. We will try it again some day when there is no election, as we missed the main object of our visit.---Sneadville (Tenn.) Times.

**Escaped an Awful Fate.**

Mr. H. Haggins, of Melbourne, Fla., writes, "My doctor told me I had consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for consumption, induced me to try it. Results were startling. I am now on the road to recovery and owe all to Dr. King's New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by H. F. Vorkamp, druggist. Price 50c and \$1.

**Another Plum Given Out.**

Washington, Aug. 19.---W. T. Marshall has been appointed postmaster at Pleasant Hill, Ohio.

**A Lazy Liver Makes a Lazy Man.**

Burdock Blood Bitters is the natural, never failing remedy for a lazy liver.

**REST MADE EASY.**

There will be less sleeplessness when Lima People Learn This.

Can't rest at night with a bad back. A lame, a weak or an aching one. Doan's Kidney Pills are for bad backs.

They cure every form of kidney ills. From common backache to diabetes. They are endorsed by Lima people. Mrs. M. M. Meyers, of 713 West Elm street, says: "There was a constant dull aching pain through my back. I could not rest in any position either sitting, lying or standing and at times was so lame and sore all over that I could hardly get up or down. The secretions from the kidneys were highly colored and deposited a heavy sediment. I suffered terribly from sick headaches and felt at times as though I could not get better. I was advised by friends to try Doan's Kidney Pills and acting on their advice, I procured a supply at McVillie's drug store, and soon noticed a decided improvement. After completing a course I was entirely cured and there has been no return of the trouble since."

For sale by all dealers; price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name--Doan's--and take no substitute.

### Has Been Served With Papers.

### Large Amount

### Of Money Belonging to Miller Estate

### Is Being Searched for by the Counsel, Representing His Daughter.

### Eccentric Way a Columbus Millionaire Had of Putting His Spare Cash in Many Unusual Places.

New York, Aug. 19.---In an effort to locate large sums of money supposed to have been on deposit with bankers here to the credit of the late James Miller, counsel representing his daughter and heir, Miss Mary J. Miller, of Columbus, O., has secured subpoenas for J. P. Morgan, and other well known financiers commanding them to appear in the supreme court. The petitioner seeks to examine the books of the bankers because upon the demand of Miller, who was a wealthy coal dealer, much difficulty was experienced in finding his money and securities. About \$120,000 has thus far been found in various country savings banks and it is supposed large sums are still to be located where they were deposited by the secretive coal merchant. It is stated by the lawyers that they already have learned there is no such account on the books of J. P. Morgan & Co.

"I had diabetes in its worst form," writes Marion Lee, of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." It is a medicine free from poisons and will cure any case of kidney disease that is not beyond the reach of medicine. For sale by H. F. Vorkamp and Wm. M. Melville.

Can't rest at night with a bad back. A lame, a weak or an aching one. Doan's Kidney Pills are for bad backs.

They cure every form of kidney ills. From common backache to diabetes. They are endorsed by Lima people. Mrs. M. M. Meyers, of 713 West Elm street, says: "There was a constant dull aching pain through my back. I could not rest in any position either sitting, lying or standing and at times was so lame and sore all over that I could hardly get up or down. The secretions from the kidneys were highly colored and deposited a heavy sediment. I suffered terribly from sick headaches and felt at times as though I could not get better. I was advised by friends to try Doan's Kidney Pills and acting on their advice, I procured a supply at McVillie's drug store, and soon noticed a decided improvement. After completing a course I was entirely cured and there has been no return of the trouble since."

For sale by all dealers; price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name--Doan's--and take no substitute.

# CENTURES OLD

The disease which has brought more suffering, degradation and disgrace upon the human race is the same to-day that it was centuries ago. It is called Contagious Blood Poison, "The Bad Disease," and is given other names, but among all nations is regarded as the blackest and vilest of all human diseases. It goes from bad to worse; the little sores that first appear are soon followed by others; the glands of the groins swell and inflame, a red eruption breaks out on the body, the mouth and throat become ulcerated, the hair and eye-brows drop out, and ugly yellow blotches make their appearance, and if the disease is not checked at this stage, every bone, muscle, tissue and nerve in the body becomes infected with poison, and from the roots of the hair to the soles of the feet there is sound rot anywhere. To cure this awful condition the blood must first be purified, and nothing will do this so quickly and surely as S. S. S., which has been known for years as an antidote for the poison of Contagious Blood Poison, & Mercury and other poisons.

ash may check it for a time, but it comes back in a still more aggravated form. S. S. S. is guaranteed purely vegetable, and \$1.00 is offered for that it contains a mineral ingredient. Write for our home-treatment plan, and how to treat it. No

I was afflicted with blood poison, and the doctors did me no good. I took their medicine faithfully. In fact, I seemed to grow worse all the while. I was disheartened, for I feared that I should never get well. At the advice of a friend I then took S. S. S., and began to improve. I continued the medicine, and it cured me completely, building up my health and increasing my strength. I have never had a sign of the disease to return.

**STEER****Hunt in Region of Stock Yards****Brings Dinner****To Many of the Hungry Strikers.****Eleven Head Broke Away From Morris' Plant, But Only****The Hoofs and Horns Have Been Found to Tell Where the Fat Bees Had Gone.**

Chicago, Aug. 19.—Packing house employees and hungry strikers vied with each other in a steer hunt that extended throughout the night following the riot precipitated by the appearance of eleven runaway bees from Morris & Co.'s plant in the district west of the stock yards last evening. Today the carcasses of four were accounted for. Little beyond the hoofs and horns remain to tell the story and there was an ample beef supply in many a home to which such a luxury has long been a stranger.

The fate of five remainder is still in doubt as only two have been rounded up and driven back to the yards. Scouting parties representing both the big packing firm and the hungry throng that battled with the police secured the prairies south and west of the yards all night and when the latter located its prey, the creature was slain and disappeared as though by magic. The herd was valued at upwards of \$1,000.

Recording Secretary Shannahan, of the packing house teamsters union, declared today that in his opinion it would be necessary to call out on a strike all teamsters connected with delivery to or from retail markets in Chicago. He said he believed this would have to be done to win the strike.

Prohibition Donnelly and John Ploer, each of the butchers' national organization made a tour of the stock yards. "I passed an hour mulling with the throng of non-union men preparing to enter upon their day's work," he said. "They are a hardy crowd and we have nothing to fear from them."

as permanent visitors to the yards. The majority are negroes and some of the types are southern. The white men are nearly all Greeks."

President Donnelly announced that labor representatives would be sent tomorrow to St. Paul, Kansas City and St. Joseph to report the situation of the strikers there. Donnelly will soon go to East St. Louis and then to Indianapolis where he will meet President Mitchell.

### Have Been Arrested on Serious Charge.

#### The Testimony of Monnino, Who Was Kidnapped,

Given in Police Court Today Developed a Most Deplorable Condition. An Uncle Among the Suspects.

New York, Aug. 19.—Young Man nino, who was kidnapped several days ago, and held in a room, but who was subsequently released and brought back to the south ferry and released, was taken to the police court today in the day where the other prisoners were arraigned but the lad failed to identify any of the others.

Salvatore Monnino was arraigned on the charge of kidnapping and was held in \$1,000 bail. In the cases of the others who have now been under arrest several days, was placed at \$5,000. Young Monnino was subjected to a sharp examination by assistant district attorney. He said:

"Cacozza took me away. We crossed the south ferry, and that man met us. We walked ten blocks and then took a street car and rode a long distance. Then we got off and they took me to a big white building and went up stairs to the top floor. Here Cacozza let me see a short stout woman opened the door. There were two men there. The fat man who met us and a thin man. I slept in bed with the fat man. There was a large young old child there they called John. I played with him. When the third man went out, he would come back and they would all go into a room and talk. I could not tell what they were saying. The fat man who never went out but stayed with me all the time was very dark. He was black clothing, a black suit, black tie and a black shirt. The woman often went to mark, but although I asked her she would not let me go with her. She said the market was too far away. It was forty blocks away. Every day the woman bought an Italian paper and brought it into the men and read it to them. Only three went into another room and I could not hear what they were saying. Last night they put me to bed without any supper and later the man came to me and said he was going to take me back to mamma. I got up and dressed and walked with the man about three blocks. We rode a long time until I heard the man on the platform say 'South ferry.' Then I knew where I was. The fat man gave me my fare and I crossed the south ferry alone. I walked toward my home and at Columbia and Amy's street, I met my uncle."

When the boy's statement was finished, Mr. Monnino, his father, who had been listening intently stood up and said:

"I have been represented as working against the police in this matter. I want to make an example of these men. I am going to take the police in every way I can and I will prosecute these men to the limit."

Francisco Bello Jr., his wife, Christian, 29, and Alfredo Horn, 11 years old, all of 214 east 104th street, have been arrested in connection with the kidnapping of Antonio Monnino, of Brooklyn.

Nearly Forfeits His Life. A runaway almost ended fatally, starting a horrible ulcer on the leg of J. B. Ormer, Franklin Grove, Ill. For four years it defied all doctors and all remedies. SEIZURE WAS ILLEGAL. Washington, D. C., Aug. 19.—It is learned at the state department that there have been no recent instructions to Mr. Bowen relative to the asphalt question but several weeks ago he was told that he should represent to President Castro that this government had been informed that the seizure of the property of the New York and Bormudez Asphalt Company appeared to be illegal, that it was certainly made without due notice to the company, that such action was unlawful and fair, while the case was still pending before the Venezuelan courts and therefore that this government requested President Castro to suspend Receiver Carter from its discharge of his functions and to restore the asphalt property to the company pending the final action of the Venezuelan court. In other words this government desires to secure a return to the status before the seizure. Nothing has since been heard from Mr. Bowen save a mail report already referred to, telling of the events leading up to the seizure.

Boston, Mass., Aug. 19.—The chief events of encampment week being over many of the veterans of the G. A. R. have left for home. There was, however, still a large contingent remaining in the city to take part to-day in various excursions arranged in their honor and which will continue throughout tomorrow. Business sessions were planned for today by the Daughters of Veterans and the Sons of Veterans—both organizations having to elect national officers and consider other routine matters. The delegates to the Woman's Relief Corps convention went to Revere beach this afternoon and participated in a general reunion. About the same time the delegates to the G. A. R. encampment started in special steamers for Bass Point, Nahant, where a shore dinner was to be served. The party numbered about 1,400 persons.

### FIRST EFFORT

#### Was Made Today to Break the Strike.

#### Fifty Cloakmakers Brought From New York

#### And Disembarked at a Suburban Station. Strikers Followed the Cars and a Riot Call Was Sent in.

Cleveland, O., Aug. 19.—The first effort of the manufacturers to break the cloakmakers' strike came today when fifty non-union cloakmakers arrived over the Nickel Plate road from New York. They were disembarked at a suburban station and placed on street cars. A number of strikers gathered and followed the cars to the center of the city. By the time Bank street was reached, the crowd of strikers and sympathizers numbered 2,000. Stones were being hurled and a riot call was sent in. When the strike breakers were disembarked, it is claimed, twenty-nine of the fifty were won over by the union men.

The crowd was dispersed but the police look for further trouble tonight.

## THE MARKETS.

New York, Aug. 19.—The opening stock market was active and very irregular, gains and losses occurring in the same group. Canadian Pacific advanced 1/2, but the Grangers were rather heavy. United States Steel preferred dropped 1/2 on the extension of price cutting in the trade. Metropolitan Street Railway dropped 1/2. Denver and Rio Grande lost a fraction.

New York, Aug. 19.—The wheat market here today was the wildest yet seen on the advance, not so much because of speculative business, although this was large, but on account of the extraordinary climb of prices, shattering all previous records by seven cents a bushel and forcing September here to \$1.14 1/2 by midway or practically 4 cents advance over yesterday's close. There was nothing for sale during the forenoon except when holders took profits and buyers of even small lots had to pay such sharp advances to get any wheat.

St. Paul, Union Pacific, Wabash, preferred, Atchafalpa and Amalgamated Copper got about a pointer more under last night. The closing was dull and irregular.

### A RESOLUTION

Declaring it to be necessary to improve Tanner street in the City of Lima, Ohio, from the Erie railroad to Second street, by constructing therein and thereunder a public sewer. Be it resolved, by the Council of the City of Lima, State of Ohio, three-fourths of all the members elected thereto concurring, as follows: Section 1. That it is hereby declared to be necessary to improve Tanner street in the City of Lima, Ohio, from the Erie railroad to Second street, by constructing therein and thereunder a public sewer. Section 2. That in the making of said improvement there shall be used such materials as are prescribed by the City Engineer, and said improvement made in all respects in accordance with the plans, specifications, estimates and profiles heretofore prepared by the City Engineer, and now on file in the office of the Department of Public Service, which said plans, specifications, estimates and profiles are hereby approved. Section 3. That the whole cost of said improvement, less the cost of the public street and public alley intersections and two per cent. of the total cost, which shall be paid by the City at large, shall be assessed to the several lots and tracts of land fronting and abutting upon said Tanner street between the Erie railroad and Second street, in proportion to the number of feet each of said lots or tracts of land fronts upon said street between said points; and the cost of said improvement shall also include the expense of the preliminary and other surveys and all printing, publishing and serving of notices required, and the publishing of the resolutions and ordinances necessary, and the cost of construction and all other necessary expenditures. That the assessments so to be levied shall be paid in the manner following: One-half in cash upon the completion of the improvement, and the remaining one-half in three months from said date. Section 4. That the assessments so to be levied shall be paid out of the Sewer Fund of the City of Lima, Ohio. Section 5. That the Clerk of the Council be and he is hereby directed to cause notice of the passage of this resolution to be given in the manner provided by law. Adopted August 15, 1904. M. S. Bowser, President of the Council Pro Tem. Attest: O. J. Rose, City Clerk. Approved August 17, 1904. Theo. D. Robb, Mayor of the City of Lima, Ohio. aug 19 & 26

Interlaken, Switzerland.

July 24, 1904.

Times-Democrat, Lima, Ohio:

Please inform Mr. Edward Christen, my friend on east Market street, that I have seen fully a score of gas engines in operation in southern Europe. At Naples I saw some, and they seemed to work well. At Venice I saw them used for propelling boats, and had a ride on one of them. The boatman told me that the engine was good, but hard to manipulate, and he considered it dangerous because some times it seemed to act capriciously. At Como and Maggiore they were again in evidence, but since then I saw no more of them.

I am now at Interlaken, which means "Between the Lakes," but this place is between the mountains as well as lakes, because the points free of lakes have high mountains. It has about 4,000 inhabitants, but its floating population of tourists, and strangers, seeking health, rest or pleasure, nearly duplicates that number. I am told that there are at present over 500 Americans, many of them public school teachers, seeking knowledge and recreation here.

Though surrounded by mountains and lakes, Interlaken is not a valley, but a high, Alpine tableland, fully 1,000 feet above the sea level. It lies at the feet of the renowned glacier called Jungfrau, and hence is totally ignorant of summer heat. At present the highest temperature in day time is 65 degrees Fahrenheit, at night time as low as 40, and often less. Today it is so cool that a good warm fire would be an agreeable companion.

In America the name Jungfrau has become associated with the idea of a lofty peak covered with perpetual snow of purest white. Here, however, the name is applied to a series of glaciers fully twenty-five miles long, having nine prominent peaks pointing boldly heavenward with silvery mantled index. Each of these lofty peaks rejoice in a name of its own, as hard to spell as its walls are to scale. Here they are in liberal relation: "Wetterhorn," "Schreckhorn," "Finsteraarhorn," "Eigerjoch," "Moench," "Jungfrau," "Silberhorn" and "Tschingelhorn." Of these Jungfrau is nearly 14,000 feet high, and is, after Mount Blanc, the highest point in Europe, and consequently the highest point in this range of glaciers.

A sleighride on the 23rd day of July sounds incredible, and to say the ride was over snow more than 500 feet deep, looks like an attempt to outdo Baron von Muenchhausen.

Such, however, was my experience yesterday. At 9 o'clock a. m., I boarded the Funicular railway car, a steam mountain climber, running on cog-wheels at the rate of about six miles per hour, and pushing one car loaded with passengers ahead of it, up a mountain side so steep that you could scarcely climb it on all-fours, and arrived safely on an altitude of over 10,000 feet at a place called Scheidegg. Here I took an electric car-line and ascended to Eigerjoch, the highest point thus far reached by railroads in Europe. When finished this electric road will go much higher still, for it is intended to ascend to the very topmost peak of the mountain Jungfrau. At the point where I alighted it will enter a tunnel, and advance in a spiral manner to a point directly underneath the highest peak, thence a shaft will be opened straight upward through rock, snow and ice, and an elevator put in position to bring tourists, curiosity and pleasure seekers to a platform raised high enough to be above the deepest snows that were ever known to fall on this eternal glacier.

A good thing: The Prophylactic toothbrush. A much better thing: The "P. S." (Special), with novel flexible handle. It surprises and delights. Does curiosity tempt?

Several years will yet elapse before this project is fully realized. I procured a map showing the plan in detail, and will let you inspect it when I return again to Lima. The peak on which this platform will be erected is called "Jungfrau," that means "The Maiden's Glimpse," and is, as I said, the highest point in Europe next to Mount Blanc.

At present the road is in operation to the slopes of the peak Eigerjoch, and here I alighted amidst a field of snow and ice. Sleds were in readiness, and for the small sum of 20 cents I got a sleigh ride across a wide field of snow, covered with a crust of ice strong enough to bear up almost any weight. The sleigh ride brought me to the head of the peak Jungfrau.

Here I covered a tunnel cut into the ice that enters this maiden peak. The ice tunnel is eight feet wide, and to the center of its concave ceiling is ten feet high. It is absolutely dark within and a light was necessary in order to find the way. Myself and nearly the whole party that was with me entered and followed our guide for a distance of about one-half mile, when we were all so thoroughly chilled that we proposed to return, and one guide gladly assented. How much farther the tunnel went, I do not know, and did not at that moment care to enquire; though the guide took the pains to tell us that the snow and ice over our heads was fully 1,000 feet high, and that there might be an avalanche coming down any moment, and completely block the exit. He also maintained that the only rational means of reaching the North Pole was by a tunnel, similar to that in which we then were.

Emerging from this icy roadway I again mounted my sled, and beat a hasty retreat from the field of perpetual snow, which in reality is a valley between the peaks Eiger and Jungfrau, how deep no one can tell, because it is always brim full of snow and ice, upon which the rays of the sun produce no effect whatever. It is, however, estimated that the snow over which I slid is many hundreds of feet deep.

There is a hotel up there, at which we all took luncheon, and precisely at 4 o'clock p. m. started on our return trip. I was glad to get away because I was almost overpowered by numbness and the lightness of the atmosphere. Every seat in the Funicular car was occupied, and we started down the mountain in the direction opposite to that on which we came, so as to circle around the entire glacier. Scarcely had we begun the descent when a terrific hailstorm came upon us, adding one more peril to our already over-dangerous journey. For at any moment a gust of wind might carry our little train, clinging to the side of a mountain, off into space, and—eternity.

The hail fell so fast and thick that it could have been scooped up by the shovel. Thank the Lord, in about an hour the storm abated, and left us uninjured, and at 7:15 p. m. we were back to our hotels, having not only climbed, but also circled around the entire glacier, none the worse for our high ride, except that many, myself included, had a severe headache, which nearly always results from a sudden change from high to low altitude. Having no experience, you cannot comprehend what a wonderful effect the altitude produces on the air. The effect is far more noticeable in descending than in ascending. The first intimation is a stinging pain on the drum of the ear, then a severe headache, causing at times a discharge of blood from the nose or ears, pain in the lungs, and sickness of the stomach. I had to hold my hands over my ears nearly all the way down the mountain, in order to temper the air pressure, and still I had a severe pain in my head for several hours after reaching my hotel.

The intrepid Romans were through these regions at an early date. Several fragments of massive walls, ruins of aqueducts, and of military roads, and especially the ruins of fortifications, catapults and watch-towers overlooking Lake Brienz, give evidence of their presence on all sides, and the names and dates on these ruins tell, not only their age and authors, but also the noble impulse of that hardy race to make their fame reach as far as their arms, and to proclaim it to many ages unborn.

Looking at these ruins and reading their inscriptions fills the mind with sadness to think how long ago their authors have left them here like evidences of their existence, whilst they that set up these works in such grandeur and solidity, could not prolong their own fleeting life.

Men pass away, but their works live on after them!

Wishing you God's blessing, I remain yours respectfully,

F. G. RUPERT.

## MAY RECOVER.

## Senator Hoar Making Fight for Life.

## He Passed a Comfortable Day and Is Holding His Own.

## The Senator is Suffering From Con- gestion of the Left Lung, Which Aggravates His Other Troubles.

Worcester, Mass., Aug. 19.—Senator Hoar's condition showed a slight improvement today. He passed a comfortable night according to his physicians, and was resting quietly at 9 o'clock this morning.

Later, General Rockwood Hoar gave out the following statement regarding the condition of his father:

"The senator has had a comfortable night and is holding his own though he is very weak. The chief cause for anxiety is a trouble with his left lung, which caused his prostration at the end of the last week. This, however, develops very little, and if it can be controlled for the next few days, there will be a ground for hope. Dr. Warren R. Gilman, one of the attending physicians said:

"Yesterday the symptoms that reached alarm are somewhat improved. Still he is a very weak man and it is uncertain whether he will be able to rally."

At noon today, the following bulletin was issued:

"The senator has had a fairly comfortable day. He is holding his own."

Senator Hoar is suffering it is believed from postmortal congestion of the left lung, impaired heart and the belief is general that chances for his recovery are less than they were early in the morning. Doctors who have had similar cases say that the general breaking down of the senator physically with the congestion of the left lung is a bad omen and they say his chances for recovery are very slight unless the lung clears immediately.

Another bulletin on the senator's condition was issued at 3 p. m. which said:

"He is resting comfortably at this hour. He has been sleeping soundly for a half hour and there is no perceptible change in his condition."

Senator Lodge was a caller at Senator Hoar's house this morning, but he could not see the patient and left for Boston soon afterwards.

At 11 o'clock this morning, the senator awoke and complained of severe pain in his back. It was the old attack of lumbago returning and Dr. Gilman, the family physician was hastily summoned. The doctor inclined to the belief that the return of the old trouble was not a bad sign as it might be indicative of returning strength. He prescribed for the pain and about 11:30 the senator went off to sleep.

## SIX PERSONS

## Escaped From Jail and Are at Large.

## A General Jail Delivery Was Attempted.

## But Was Frustrated by the Alarm Given by a Trusty. Jailors Forced Many Persons Back.

Camden, N. J., Aug. 19.—An attempted general jail delivery at the Camden county jail today, six prisoners escaped from the institution and are still at large. The bars in the front window were tied off and all the prisoners would have made their escape, had it not been for a "trusty" who gave the alarm. The jailers with drawn revolvers finally forced the prisoners back but not before six had gotten away. Among those who escaped, is Alfred Harvey, colored, who was nearly lynched yesterday because of an attempted assault on a little white girl.

A general alarm has been sent to the Philadelphia police officials and the authorities of this city have every available policeman searching for the escaped men.

## OBITUARY.

Anna Marie Copeland, wife of E. B. Copeland, and daughter of Captain Wm. and Anna M. Herring, was born at Springfield, near Mansfield, Richland County, Ohio, on the 16th day of May, 1880 and departed this life at her late residence No. 724 east Elm street, Lima, O., on the 17th day of August, 1904, aged 44 years, 3 months and 1 day.

On the 19th day of September 1876, she was united in marriage to E. B. Copeland, and to them were born two sons, Clyde and Howard. To mourn her loss, she leaves a husband, two sons, one brother and four sisters, besides numerous other relatives and many friends.

In the month of March, 1876, she was converted and gave her heart to God, and united with the church at St. Johns, Ohio, and remained a member of the Christian church at that place until death.

For five years, Sister Copeland had been a sufferer from pain and disease, but during her long suffering, she bore her affliction with great fortitude, always cheerful and pleasant, looking upon the bright side of life, and hoping and trusting for the better. On the day of her death she told her husband that she had suffered more than she had ever told, and more than any one ever knew; but that she did it because she did not want her family and friends to worry any more than possible.

Sister Copeland died in a living faith, conscious to the last, bidding her family and friends, one by one, an affectionate good-bye, admonishing them to be good, not to forget her, and to meet her in heaven.

To her many relatives, who were not permitted to visit her during her last sickness, she sent an affectionate farewell.

To her friends and neighbors, she expressed a word of kindness and good cheer. Her enemies, if any she had, she said she most graciously forgave.

She was a faithful wife, a tender mother, and an affectionate sister. All who knew her cannot but feel that her loss to earth is a gain to heaven, to which we would express: "Thy will of the Lord be done."

## A PHYSICIAN HEALED.

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I had been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief, until I commenced to use Foley's Kidney Cure. After taking three bottles, I was entirely relieved and cured. I now use it daily in my practice and heartily recommend its use to all physicians for such troubles. I have prescribed it in hundreds of cases with perfect success." Many persons in this community are suffering from kidney complaint who could avoid fatal results by using Foley's Kidney Cure. For sale by H. F. Vorkamp and Wm. M. Melville.

## FELL FROM A FIRE ESCAPE

## And Broke His Left Leg Near the Ankle. A Badly Frightened Lot of Hotel Guests.

Washington, Aug. 19.—More than one hundred guests at the Mount Vernon Hotel, on Pennsylvania avenue, were aroused from their slumber early this morning by a cry of fire. The blaze was discovered on the top floor of the building and a number of the guests had trouble in reaching the pavement, some being slightly burned. One of them, Mr. Thomas T. W. Evans, of Philadelphia, had to be taken to the hospital. He fell while descending the fire escape rope from his room to the alley to escape the flames, breaking his left leg near the ankle. His hands also were injured. The fire did considerable damage to the rooms on the fourth floor and water caused a small amount of injury on the floor below.

In this we read between the lines less work for the doctors. The signs of the times point to an enormous increase in intelligent public interest in health. A new generation with purer, stronger blood and therefore more active, braver brains and body. No physically robust, healthy person ever succumbed to grip, consumption, malaria or any other germ disease. But with a weakened system we all have to fight the germs of disease. Our blood is often in a fertile condition for the growth of bacteria—the germs of disease—because our stomach is disordered or our liver is torpid—in either case our blood does not get the proper nourishment. A torpid liver means a stagnation of the blood and an accumu-

## THE YOUNG INQUISITOR.

Former Governor Frank S. Black told this story, which is perhaps as good as any of its kind, while at the Manhattan one day last week:

"A neighbor of mine had a 7 year old son who, I think, would take some leading as a plover of questions. One evening a few weeks ago, I was making a call at his father's house. The boy was present in the sitting room and at intervals for a great part of the evening, he interrupted his dad by asking embarrassing questions.

"Finally the old fellow became tired of his son's many queries.

"I'll see that your mother puts you to bed before I get home in future," he sternly informed the boy.

"But, pap," retorted the child, with a natural overflow of philosophy that was delicious, "how can you ever put me to bed if you put me to bed before you get home?"

"That was his last question for that evening."—New York Globe.

## Taken With Cramps.

Wm. Kirmse, a member of the bridge gang working near Littleport, was taken suddenly ill, Thursday night with cramps and a kind of cholera. His case was so severe that he had to have the members of the crew wait upon him and Mr. Gifford was called and consulted. He told them he had a medicine in the form of Chamberlain's Colic, Cholera and Diarrhoea Remedy that he thought would help him out and accordingly several doses were administered with the result that the fellow was able to be around next day. The incident speaks quite highly of Mr. Gifford's medicines.—Elkader, Iowa, Argus.

regains its natural consistency and richness. It is not heart disease. Sometimes people suffer intense pain over the heart, which is not heart disease, but caused by the stomach. It is the occasion of much anxiety, alarm and suffering, for which its victim is dependent upon reflex disturbances from the stomach caused by indigestion. In the same way many bad coughs are dependent upon these reflex disturbances of what is called the pneumogastric nerve.

There can be no question that the common-sense way of treating all these symptoms is first to cast out the poisons from the system by a simple vegetable laxative such as Dr. Pierce's Pleasant Pellets. These are made from botanical extracts, in concentrated form. To enrich the blood and increase the red corpuscles, Dr. Pierce's year ago demonstrated in his large practice that there was a vegetable compound that would quickly cure the bad symptoms enumerated above by increasing the red blood corpuscles and thereby feeding the nerves on rich blood and thus doing away with the nervous irritability. This "Medical Discovery" also acts upon the digestion and assimilation of food in the stomach, so that the blood gets its proper food in the stomach. Feed the lungs, stomach and heart on rich red blood and you have surely a healthy body which will throw off the germs or disease which lurk everywhere. Get as near nature's way as you can. A medicine made entirely from botanical extracts and which does not contain alcohol is the safest method. Dr. Pierce's Golden Medical Discovery contains no alcohol nor narcotics.

Will be paid by the World's Dispensary Medical Association, Proprietors, Buffalo, N. "This is to certify that I have used Dr. Pierce's Golden Medical Discovery and think it's the greatest medicine in the world," writes Mrs. V. M. Young, of Weir, West Va. "I took down sick six months ago and called in our physician and he gave me medicine but I grew worse. He said I had dyspepsia in its worst form. I decided to try your medicine and began to improve. I used five bottles, two of the 'Golden Medical Discovery' and three of 'Favorite Prescription,' and now I am doing my own housework. A number of my lady friends also are using Dr. Pierce's medicine and they recommend it highly. May God bless and prosper you in your grand work."

Sick people are invited to consult Dr. R. V. Pierce by letter. All correspondence is held as strictly private and sacredly confidential.

## LAST Day of the Teachers Institute, And the Week Is Pronounced One of Great Benefit.

Instructors Were Well Prepared With Abundance of Sound Reasoning

And Handled There Various Subjects With an Ability That Wins for Them the Warmest Praise of Teachers.

The week's pleasures of the institute were greatly enhanced by the visit of Prof. L. O. Lantis who is representing the State Normal School in connection with Miami University. In a few well chosen remarks, Prof. Lantis remembered three classes of teachers. The first class is the inferior teacher who is at the institute to learn and to be benefited. This is a large percentage and they always do an institute good. The second class is the teacher who is at the institute because they must and then there is next a third class, the lively bustling fellow who is always getting ready for something better. This is commendable, and the institute appreciates the vision of the teachers.

A splendid audience greeted the performers at the teachers' institute last evening. Promptly at 8 o'clock, President Cotner called the meeting to order and announced the opening song by Miss Arthur Feltz. "The Old Song" was her selection and it was so well rendered that round after round of applause showed the appreciation of the audience. "The Old Song" by the same singer was of the highest order, serving to refresh the audience after the heavier work of the evening. Those who expected Prof. Tussing to give a light and trifling entertainment with his lecture on "Social Water" were most agreeably surprised. It was really a scientific lecture of the highest order. The real subject was soon shown to be "The Old Song" and the science of the subject was fully illustrated by the ample supply of apparatus which the professor used. There are at least two points of view. First, is the scientific side of the work done. To everybody there is nothing so potent in information or more nearly allied with the forces of life as carbon dioxide. Considering frequency with which the teachers must refer to gas as a product of life makes necessary in intimate with it. That cannot be neglected. It was carefully followed by the Professor in his lecture and the result of his profound study was applied to the sciences of psychology and geography, and to the greatest of all sciences—the science of life. The other side is as a model revelation. In this sense the lecture stands as a model. The numerous experiments fully illustrated the science that has been learned from the text book. Whoever has followed the lecture through, has an idea of teaching that should be embodied to make the work effective.

Today's session opened with devotional exercises led by Prof. Foster. A song service in which all joined, was followed by a clear and profitable discussion of the potency of teaching by means of pictures. The reason that Mr. Saenger, the artist, can command great prices for his portraits is that he possesses the power of making the canvas show the soul of the person studied. Dr. Blaisdell continued his address by showing how the pictures of the school room and elsewhere show the seasons, occupations, climate and many of the characteristic of a region. An occasional lesson based upon pictures will encourage the habit of thinking logically and at the same time cultivate the aesthetic side of the child's life. Dr. Blaisdell always touches his subjects with the hand of a master. His frequent reference to the common troubles of the school room, the common impulses of child's life makes an institute with him a profitable one.

The work that Prof. Tussing brings to the institute is of the highest order. His subjects are common. Who has not just nature in her vaults? Or has not read the simplest science of the subject? yet when Prof. Tussing announces "Snakes" as a subject, it is no time to feel creepy, but to make friends with one of the most graceful, and most remarkable animal in existence. Not all snakes are poisonous. Most snakes are our friends. The various stories of the snakes popular charm and their basis in a superstition that science has done much to remove. Much of this charm is due to curiosity of birds and other animals at finding something strange. The snake would rather be left alone, and we are satisfied that it should be so.

Prof. Tussing draws from nature many lessons for the coming year. He is in touch with the very soul of nature. His talk on "The Survival of the Fittest" is well worth the price of the entire week. We have been so long accustomed to think of the survival of the fittest that such a study as "The Survival of the Fittest" comes as a timely antidote to the popular trend of thought. It was shown that the human family has reversed the trend of the laws of nature in the great course of history and science in using the most vigorous and strongest in the great combat of human life.

Yet many things make for righteousness. Such as degenerates, the very rich and the very poor, fall by the wayside, leaving the strong middle class to represent the best in the human family. Drunkenness, weeds, out the poorest of the race as also will vice and crime. Teachers sit silent in attendance as Prof. Tussing shows how civilized warfare is disappearing and paints a bright and hopeful future for the human race, based upon intellect, society and right living.

Prof. Foster in his work with his class in the school room. A good rule would be to strive by constant growth to make each day better than the last, say in intimate with it. That cannot be neglected. It was carefully followed by the Professor in his lecture and the result of his profound study was applied to the sciences of psychology and geography, and to the greatest of all sciences—the science of life. The other side is as a model revelation. In this sense the lecture stands as a model. The numerous experiments fully illustrated the science that has been learned from the text book. Whoever has followed the lecture through, has an idea of teaching that should be embodied to make the work effective.

the Mississippi upon the current of events from 1861-5 was carefully followed. Events in history suggest each other. Thus the year 1809 brings us the birthdate of at least ve of the noted men of history—Wendell, Phillips, Teunison, Gladstone, Lincoln, Holmes. Lastly, local history should stimulate a desire to save the old landmarks of Ohio's history. Who is it, asked the professor, that can not see the enlarging and expanding history in the sites of the old forts of northwestern Ohio. Prof. Foster proves a great favorite with the teachers. He develops the thought of the teachers by his practical discourse upon his subjects. He would not seek perfection in the child's work, but educative value in every activity of the school room. The professor's lectures are always filled with good things and he never fails to lay down a fund of knowledge that the teacher can use.

**Committee on Resolutions.**  
President Cotner has appointed the committee on resolutions as follows: Supt. E. C. Ackerman, chairman; P. E. Kilgore, F. R. Mason, D. E. Baxter, C. L. Foss, Miss Lottie Rader, Miss Kate Turner, Miss Ethel Zernubly, R. D. Staup, G. W. Craig and Bert Highland. This is one of the most important committees of the institute and Prof. Ackerman has already called a meeting of the committee and an interesting report is expected.

The roll call this morning showed a total of 433.

**QUESTION IS NOT SETTLED.**

**The Sublime Porte Is too Vague in His Replies to Be Sent American Minister.**

Paris, Aug. 19.—A dispatch to the Temps from Constantinople says that though the American minister, Mr. Ledshman, originally declared the port's declaration on the subject of equal treatment for the American schools to be satisfactory, the subsequent explanations were too vague to permit the question to be considered settled and an active correspondence is still being exchanged.

### GRIEVANCES OF MINERS

**Who Claim Employers Have Not Lived Up to the Terms of the Strike Commission.**

New York, Aug. 19.—Special grievances of miners who claim that their employers have not lived up to the terms of the anthracite strike commission in all its details, were presented to the board of conciliation of the commission here today. The first matter considered was a complaint from the employees of the Exeter colliery of the Lehigh Valley Coal Co. They claim that they are not receiving pay according to the terms of the anthracite strike commission.

The matter was referred to the company for final answer.

### AGENT CHARGED WITH EMBEZZLEMENT.

Marysville, O., Aug. 19.—On a charge of embezzlement by the American Express Company, a warrant was sworn out last night for the arrest of W. F. Tanquey late agent of the Big Four Railway at Milford Center. Tanquey is charged with the embezzlement of \$166.44 on July 30 last.

The warrant was placed in the hands of Sheriff Burham and late last night he left for Fredonia, where Tanquey is in jail.
